Rapid Intervention Team

About the Course

Now that you’ve assembled the Rapid Intervention Team (RIT) what is the most effective deployment strategies to ensure the most efficient use of resources? This class will examine how to direct, coordinate, and manage RIT activities.

What You Will Learn

• Select the tools and equipment to meet the three primary goals of the initial RIT response
• Learn how to direct and coordinate the response of the initial RIT
• Understand how predetermining RIT assignments will greatly improve your teams effectiveness
• Practice how to supervise and manage a RIT response within the Incident Command System
